Applicant: Philip S. Ng et al. PATENT APPLICATION

Amendment

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir or Madam:

In response to the Office action mailed April 6, 2004 from the Patent and Trademark Office regarding the above-identified patent application, please amend the above referenced application as follows:

In the drawings:

As suggested by Examiner, Figures 2 and 3 have been amended to include the data output of each flip-flop connected to the gate of a corresponding transistor switch. The amended drawings are enclosed. Amended items are circled in red on the enclosed copies of marked-up drawings. Also enclosed are new formal drawings incorporating the amendments. Applicants respectfully request that the new formal drawings be entered and the objection to the drawings withdrawn.

Since the transistor switches were referenced in the figures as F1,..., Fn and the specification clearly recites that F1, ..., Fn are switches, (on page 3, line 20), no new matter has been added by means of these drawing amendments.
